8. The data of the registered students from the unique link will be displayed on the dashboard provided to the Partner Organizations.
9. There is No warranty on the Solar Diya
10. All the Solar Diyas will be shipped after the event on 2nd October 2020. The guidelines for participation in the Solar Diya Painting Competition are [here](#).

Energy is the driver of our social and economic life, but it is also driving climate change.

Unprecedented forest fires, glacier melting, intense heat waves, and change in weather patterns are worrisome trends. Don't you think so?

The right decision at this time could make our environment clean and sustainable.

Without ever naming the nomenclature, Mahatma Gandhi has been the biggest propagator of sustainable development. He had warned the world of the adverse effects of mass production and

unlimited consumption. In this webinar prominent personalities having in-depth knowledge and experience on energy, environment, and sustainability will address to show directions in which the world should move. Do not miss, this three-hour webinar that is open to all age-groups, this session can change your life and direction as well.

## Speakers:

		
<p><b>DR. ANIL KAKODKAR</b></p>	<p><b>MRS. ELA GANDHI</b></p>	<p><b>DR. DIANA ÜRGE-VORSATZ</b></p>
<p>Dr. Kakodkar, a Padma Vibhushan awardee, has been a supporter of the Energy Swaraj Foundation since its inception.
