CULTURAL GARBA

The ITSA celebrated the colorful Hindu festival of Navratri on 18-19 October of 2018 with a lot of joy and happiness. The tradition of Garba was carried out with love by all the students of the IT department. Students danced their hearts out to the tunes of Garba! Other than the high-on-energy music students were all dressed in traditional Garba ensembles.

HACKEREARTH

HackerEarth, a platform for coding and development, was provided to the first year students of IT department for conducting a quiz within the students. This not only built their competitive programming skills but also develop their coding skills and knowledge. The freshers were introduced to a new platform for coding and devleopment due to this initiative taken by the IT department.

ESPORTS

Giving boost to Technical and Non-technical event, the ITSA also organized a small PUBG competition to enrich the competitive and fun part of the freshers. Freshers participated with their great enthusiasm .

FOOD FEST

The ITSA not only organized events related to the academics but they took a great initiative by organizing a food festival in the open theatre. With a fantastic range of delicious cuisines the festival was a great day out!
