

Government College of Engineering, Karad

Department of Master of Computer Applications

STUDENT ASSOCIATION

Features

MCASA (Master of Computer Applications Students Association) was established in year 2002. This Association comes to existence with primary goal to motivate the students for Curricular and Co-Curricular activities. The MCASA concerns with cultivating the technical skills in the mind of students along with the technical proficiency. MCASA also concerns about personality development of students along with technical proficiency. MCASA also concerns about personality development of students by organising periodic activities like Group Decisions, Aptitudes, Debates etc. The main motive of MCASA is to harden technical skills of students, MCASA also invites eminent personalities from various industries.
