Role	: Intern

Description:

Curlin 8000 Ambulatory Pump is infusion system that delivers medication to the patient. Software helps in setup and transfer clinically appropriate configurations and settings to the pump. It supports multi therapy infusion system for delivering medication. It also helps in review and report historical data related to the pump and infusion.

Responsibilities:
- Assembling of the different parts of Ambulatory Pump and make the pump in working Condition.
- Upgrading the Pumps Software and calibrating the Device
- Understanding the Requirements and grouping of the requirements according to Functionality
- Writing Test Scenarios, Test Scripts and Execution of the same scripts.
- Finding Defects during execution of test scripts.
- Defect logging in Test Track, verifying those defects and opening and Closing accordingly.
- Involved in Smoke Testing every month and Ad-hoc Testing regularly
- Interacting with the developers to make sure that they have understood the issues and proactively involved in Defect review meeting

Educational Projects

- **Integrated Information Mining for Image Retrieval in Remote Sensing (ME Project)**

Proposed algorithm is implemented in three layers. In first layer of algorithm, local and holistic features are extracted from database images and query image. In second layer, ranking and sorting method is applied and finally in last layer, Support Vector Regression (SVR) classifier is used to retrieve images similar to query image.

- **Intelligent Metro Train (BE Project)**

Publications

Submitted paper in International Conference on Visualization, Graphics and Image Processing (CVGIP) on the topic Integrated Information Mining for Image Retrieval in Remote Sensing.

Co-curricular Activities:

- Class topper in 10th and M.E.class
- Participated in Poster Presentation for M.E. in e-PGPEX-2017
- Scholarship - 7th Standard
- Passed drawing exams of Elementary and Intermediate

Personal Skills

- Good Communication and interpersonal skills.
- Likely to maintain good Time management.
- Ability to work under extreme pressure
